How will my bill be adjusted?

If eligible, up to 2 consecutive billing periods affected by the leak may receive an adjustment equal to 50 percent of the difference above the Average Water Use.

Average Water Use is determined by using the average 6-months of usage prior to the leak OR prior years' relevant usage for seasonality.

It may take up to 2 billing cycles after the repair to determine if all leaks are sufficiently repaired and if the water usage has returned to average use. If approved, the adjustment will be applied as a credit to your account.

Accounts receiving Leak Adjustments are ineligible for another water Leak Adjustment for the next 24 months from the date of the leak repair.

Why would I NOT qualify for a Leak Adjustment?

Your account may not qualify for a Leak Adjustment if during the high water usage period you:

- Have been an account holder for less than 13 consecutive months of water use at the service address
- Failed to provide documentation after the leak was repaired
- Filled a swimming pool or hot tub
- Established new landscaping (new sod, new trees, drip system, etc.)
- Received a Leak Adjustment in the previous 24 months

Under all circumstances, the Meridian Metropolitan District reserves full and absolute discretion to consider, grant, modify and/or deny any and all Leak Adjustment Applications or other billing adjustments, and nothing in this policy guarantees to any customers, users, and/or accounts and Leak Adjustments, offsets, credits, or other billing modifications.
