NOTICE OF MANDATORY LANDSCAPE IRRIGATION RESTRICTIONS

Date 7/21/2020

This is to advise you that due to the continuing extraordinarily dry conditions this season and resultant demands on the irrigation storage reserves, effective 7/21/2020 the following mandatory use restrictions will apply until further written notice:

- Landscape irrigation will be allowed only 3 times per week. Permitted irrigation times for your property are Tuesday, Thursday and Sunday, for even-numbered addresses and Monday, Wednesday and Saturday, for odd-numbered addresses. The hours of watering are between 6 p.m. and 6 a.m.
- Allowable irrigation time per zone is determined by nozzle type. Visit Denver Water Board at www.denverwater.org for watering times for rotary head, rotary/high-efficiency, fixed head or manual sprinkler.
- A fine will be added to monthly billings in the event of a violation (\$50 for single family residential; \$250 for all other accounts). Fines for repeat violations will be doubled for each occurrence.

The District will attempt to remove these restrictions as soon as conditions permit. In the meantime, your cooperation with these water conservation measures during this unusual period is appreciated.

Meridian Metropolitan District

Note: Up to date information on turf irrigation needs can be obtained under “Rules for outdoor use” through the Denver Water Board’s web site www.denverwater.org
